Subject: Safe Trip!

Ex. 6 PII

Hi Dennis,

I just want to wish you a safe and productive trip as you visit the Bristol Bay area. Also, I know you will be well briefed and prepared to answer many questions. Here are some questions though that you may be asked in your meetings.

- How long will it take for EPA to reach its decision on the watershed assessment?
- What comes after the watershed assessment?
- How long would it take to reach a 404(c) decision once the watershed assessment is complete, assuming that the assessment concludes that a 404 action is warrantable.
- What are the questions that EPA seeks to answer before making a decision on the watershed assessment?
- What is necessary for EPA to make a finding sufficient to trigger a 404(c) action?
- What recourse exists once a decision is made concerning the assessment and 404(c) action?
- How will EPA incorporate Environmental Justice and Tribal Trust obligation considerations into its decision-making process on the watershed assessment and 404(c) determination?
- Once the Administrator makes a decision, is that decision revocable or can it be appealed?
- Can EPA reach a 404(c) decision that allows some mining to occur or must it prohibit all mining?

As always, please feel free to call me if I can be of any assistance. Wish I could be there with you! All my best,

Wayne
